

15 1616

IN THE UNITED STATES PATENT OFFICE

Application serial No. 10/083,529

Docket no. UND-99-02-D1

Applicant: Undurti Narasimha Das

Primary Examiner: Pryor, Alton Nathaniel

Title: A method of stabilizing and potentiating the action of anti-angiogenic substances

Group Art Unit: 1616

Amendment to document filed on 24th March 2008

This is a response to the Notice of Non-Compliant Amendment. This Notice of Non-Compliant Amendment refers to the amendment document filed on 24th March 2008, which in turn was a response to the Office Action mailed on 12/31/2007.

The Notice of Non-Compliant Amendment sent mentioned that amendment document filed on 24th March 2008 the following item(s) cause the Amendment Document to be non-Compliant:

"Each claim has not been provided with the proper status identifier, and as such, the individual status of each claim cannot be identified. Note: the status of every claim must be indicated after its claim number by using one of the following status identifiers: (Original), (Currently amended), (Canceled), (Previously presented), (New), (Not entered), (Withdrawn) and (Withdrawn-currently amended)".

In response to the above Notice of Non-Compliant Amendment, I am here with providing the individual status of each claim by using the appropriate status identifier after the claim number.

I may also mention here that by error a typographical mistake occurred in the Response to the Office action of 12/31/2007 was mailed. On page 11, para 5, line 2: instead of claim3, it was mentioned as claim 2. It should actually read as "Claim 3" in the place of Claim 2.

I wish to bring to the kind attention of the examiner that this patent application has been pending since 02/27/2002 and hence, an early issue of the patent will be greatly appreciated.

I am also enclosing self-addressed, stamped envelope so as to enable you to acknowledge the safe receipt of the enclosed material.

With regards,

Sincerely,

A handwritten signature in black ink, appearing to read "U. N. Das" with a stylized flourish at the end.

Undurti N Das.

Date: 15th August 2008.
